- 8.** I do not want to change anything. Teachers help us with our lessons and help us understand better.
- 9.** Short lessons the teachers are softer than the main schools.
- 10.** I liked my Dari singing lessons the most about Saturday school 2 One thing I would like to change about Saturday school is the online lessons I don't see the need in online lessons anymore as normal schools have started to teach face to face for a long time, which helps me learn better So I would appreciate it if I can come to class and learn face to face as I can learn better because of the environment I'm in.
